Object-Oriented Software Development, Web Design and Programming, Database Systems, Information Systems Analysis and Design, Information Systems Project Management, Computer Networks, Software Engineering, Mobile Application Development

Experience

MSIB Batch 6 | PT Educa Sisfomedia Indonesia (Gamelab ID)

Full-Stack Web Developer

Project – Zora Stamp Mar 2024 - Apr 2024

- Led team by managing communication and workflow to ensure on-schedule project completion. As a Front-End, slicing Figma designs into responsive HTML, CSS, and SASS for design consistency.

Project – Duit Tracker May 2024 – Jun 2024

- Contributed as a full-stack developer, create the transaction and dashboard interfaces (user and admin) on the frontend, and handling data management for features on the backend.

VSGA Digital Talent Scholarship | Ministry of Communication and Digital Affairs

Junior Web Developer

Project - Academic Information System Aug 2024 – Sep 2024

- Designed UI prototypes for applications in Figma, then slicing these designs into web pages as a Front-End Developer. On the backend, I managed data and database integration.

INTERNSHIP | PT Inline Indonesia Group

Full-Stack Web Developer

Project – Learning Management System Oct 2024 – Dec 2024

- Full-Stack Development : developed front-end web pages for course and user interfaces using Next.js. Manage system data and integrate Next.js with Laravel via REST API.
- Network Management : configuring CORS for security, optimizing with CDN to reduce latency and compressing temporary storage data.

Skills and Achievements

Technical Skills : HTML, CSS3, JavaScript, PHP, Next.js, Laravel, MongoDB, MySQL, JWT Auth, Rest API, GNS3, CDN.

Soft Skills : Teamwork, Discipline, Responsibility, Diligence, Resilience.

Achivement : TOP 2 team in VSGA Competition Capstone Project “WEB Developer” 2024
